

HABSII

Your life, beautifully connected.

An AI Life Operating System. One place where dreams, journeys, money, meals, memories, documents and people live together — connected by a shared Life Graph.

INVESTOR PITCH DECK · 2026 · CONFIDENTIAL

habsii.com · invest@habsii.com

Habsii turns everything scattered across a person's life into one connected story — and uses AI to help them move toward the future they actually want.

Not a travel app.

It knows why you are going.

Not a finance app.

It knows what you are saving for.

Not a safety app.

It knows who loves you.

THE PROBLEM

A life split across 40 apps.

Nothing knows about anything else — so the user does all the connecting, manually, forever.

Trips

An airline app, a hotel app, a maps app and a screenshot folder.

Money

A bank that knows the balance but never the dream.

Safety

A group chat nobody reads in time.

Memories

30,000 photos and no story.

Documents

An email search for the word "confirmation".

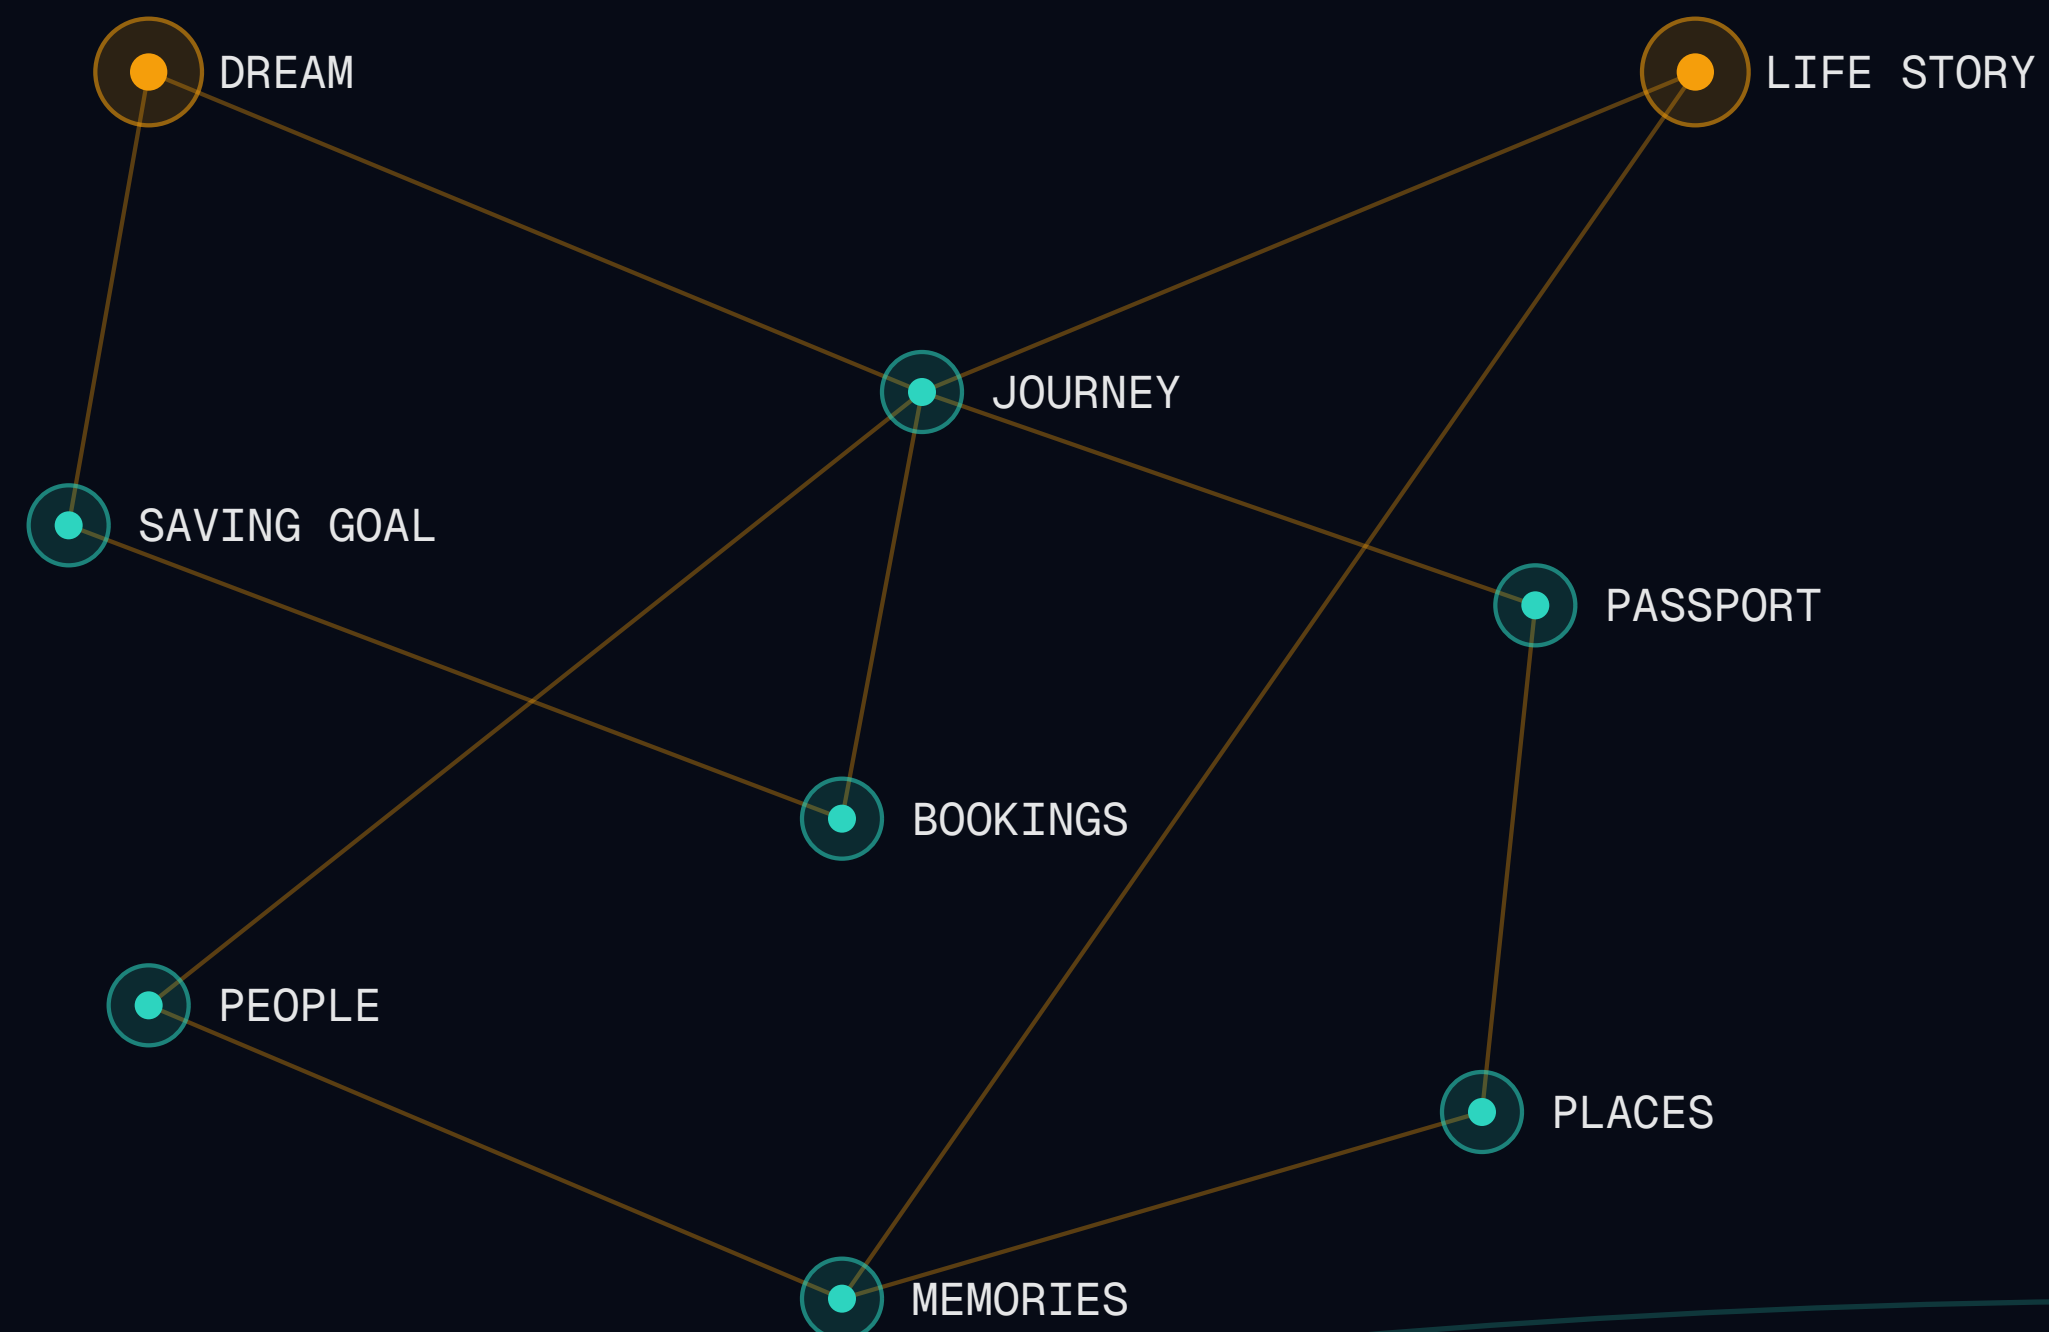

The cost

Decision fatigue. Forgotten plans. Dreams that quietly die.

THE SOLUTION

The Life Graph.

Every meaningful action writes to one persistent graph. So the whole system learns the whole person.

Why it compounds

- Saving money advances a dream.
- Booking a flight completes a journey.
- Visiting a place becomes a memory.
- A memory becomes a chapter of a story.
- Checking in safely reassures the people who love you.

Features can be copied. A user's connected life cannot.

THE PRODUCT

Eight universes. One system.

Habsii — Your life, beautifully connected.

One AI Life Operating System for your travels, dreams, money, food, people and safety.

habsii.com

Life Dashboard
Today, in one screen.

Your Living Planet

Every place you've loved, saved and dreamed of — on one living globe.

Habsii

Living Planet
Everywhere you've been and are going.

Orbit & Safety

Your people — and four calm safety levels instead of one panic button.

Habsii

Orbit & Safety
Your people, safely close.

Dreamspace

Turn a dream into a real plan — with dates, costs and next steps.

Habsii.

Dreamspace
A wish becomes a plan.

THE PRODUCT

Money, food, documents and AI — connected.

Utopia Finance
Dream-linked money and readiness.

FoodVerse
For everyone. Halal, effortlessly.

Passport & Travel
Every pass and document, offline.

Habsii AI
Speaks first, from full context.

SIGNATURE FEATURE

Safety, made humane.

No red panic button. A four-level status a person can actually use — and a trusted circle that is told instantly.

1 I'm OK

2 Uncomfortable

3 I need someone

4 Emergency

Plus Missing Mode: a consented location trail, a live dossier and a timeline the people looking for you can actually act on.

Missing Mode

Find someone you love — **last known place**, **safety level** and **full timeline**, only what they chose to share.

Search by name or phone number

Consent-first. Nothing is shared without permission.

Habsii.

WHY HABSII WINS

Six things nobody else has together.

01

Life Graph

A persistent, cross-domain memory of a real life.

02

Living Planet

An emotional home for a life's geography.

03

Safety 1–4

Humane escalation with real-time circle alerts.

04

Cause & effect

"You saved 240 kr — Bali moved 3 weeks closer."

05

Proactive AI

The assistant speaks first, from full context.

06

Halal as a layer

Inclusive by default. ~2B people, effortlessly served.

WHY NOW

The window just opened.

Context is finally cheap

Models can now reason over a whole life. Two years ago they could not.

An API-complete world

Flights, stays, banking, maps and identity are all programmatic.

Post-app fatigue

Users are consolidating. The winner removes apps, not adds one.

New expectations

People now expect software to know them and act first.

Market

\$1T+

travel & experiences booked annually

\$60B+

personal finance & wellbeing apps

~2B

halal-conscious consumers, underserved

40+

apps a modern life is split across

Habsii doesn't fight a category. It sits above them — so each one becomes distribution.

Free-first. Then five revenue paths.

Trust and graph density come first. Paid infrastructure is already built and dormant behind a flag.

01 Habsii Pro / Pro+

Deeper AI, simulations, family safety, richer sharing.

Built · dormant

02 Booking commerce

Commission on flights, stays and experiences already integrated.

Live integrations

03 Life commerce

Food, experiences and local discovery.

Next

04 Family & circle plans

Safety and coordination for households.

Next

05 Creators & hosts

Tools for people who host and guide others.

Scaffolded

WHERE WE ARE

Built, audited, and ready for beta.

98/100

internal production readiness

119+

audited live routes

8

connected universes

0

placeholder screens

Verified end to end

- Booking lifecycle: create → persist → notify → cancel.
- Account isolation verified across two live accounts.
- Safety escalation and watcher alerts tested in real time.
- Row-level security, audit logging, rate limiting, upload guards.
- Mobile-first verified on phone, tablet and desktop. PWA with offline passes.
- Analytics, error monitoring, admin dashboard and beta feedback live.

Edge-fast. Private by design.

Frontend

- React 19 + TanStack Start
- Edge-rendered, mobile-first
- Tailwind design system
- PWA with offline passes

Backend

- Postgres with row-level security
- Typed server functions
- Realtime presence & safety
- Consent-scoped location sharing

AI & integrations

- Model-agnostic AI gateway
- Proactive Life Graph signals
- Duffel · Amadeus · LiteAPI
- Maps, banking, payments, wallet

Twelve months.

0-3 MONTHS

Public beta

- Onboarding polish
- Retention loops
- "Since we last met" as the daily habit
- Life Story as the emotional payoff

3-6 MONTHS

Depth

- Richer Life Graph reasoning
- Family & circle plans
- Deeper finance automation
- Expanded booking supply

6-12 MONTHS

Scale & monetize

- Pro tiers switched on
- Commerce expansion
- Nordics → EU → Gulf → East Africa
- Habsii AI everywhere

THE ASK

Raising to fund the moat.

Engineering depth

Life Graph reasoning and proactive AI — the part nobody can copy.

Growth

Beta to the first 100,000 connected lives.

Supply & partnerships

Travel, food and family safety.

Trust

Security, compliance and privacy certification.

HABSII

Your life, beautifully connected.

**Phones organized our tasks.
Social networks organized our attention.
Nothing has organized our lives.**

Habsii is the layer a person opens first — remembering where they've been, understanding where they are, quietly helping them reach where they're going.

Your life, beautifully connected.
